We are raising the bar on higher education, strict sanitation, and safe practice. The GAP Directors, administration, and committee members have over 15 years of experience in the industry. It is essential that important details of our industry are supported by facts, experience, and education. GAP sets high standards for the industry for professional practice.

GAP is an association that is lead by an OSHA Instructor with committees that range in the industry with a minimum of 15 years of experience and education.

Members of the specialized committees are referred to as “Board Certified Professionals”. The letters after a professional’s name, mean that their education and training, professional qualifications, competence, and ethical conduct have passed a rigorous evaluation, and have been found to be consistent with the high standards established by GAP.

CERTIFICATION:

Certification for Medical Esthetics is recognized in the industry of skin. Aesthetics and Esthetics is the same terminology, spelling is slightly different due to parts of the world. In America, Esthetics is the English terminology and ME Certification helps keeps the confusion down of MA (Medical Assistant). In some places, medical field, and cosmetology field, many people still call MA as in Medical Aesthetics. You are able to choose either letters after your name depending on your state requirements and regulations and if you work with a doctor. It is also important to understand that this certification is from a group of professionals in the field. Each state has their own regulations on Medical Esthetics, it is up to you to research your state and it’s requirements.

Certification for each specialized area includes the following components:

Compliance

Applicants must agree to:

1. Obtain the applicable insurance required to perform as a professional.
2. Comply with all regulations required by State, County, City, and Federal laws.
3. Comply with all regulations that pertain to the specialized trade, including OSHA regulations AND State Board regulations.
4. Abide by the Code of Ethics established by GAP committee.
5. Maintain good status of Certification, all fees are paid, membership dues are current at all times.
6. If applicable, current OSHA certification at all times.
7. Pay non-refundable, non-prorated annual fee of \$100, or 2 years \$150.

Eligibility Requirements:

1. Maintain current membership.
2. Copy of Degree, Education Certificate, or Training Certificate with the required amount of clocked hours.
3. Be at least eighteen (18) years of age.
4. Complete application with non-refundable application fee of \$200.
5. Pass GAP exam (\$100 charge for exam, includes 1 re-test). We suggest you take the online pre-exam course for \$200 before taking the GAP acceptance exam. Some specializing certifications will require more than 1 exam for certification.

Restrictions

Applicants are ineligible for certification or renewal of certification if the applicant:

- Has been cancelled due to mis-conduct, violation to safe practice, permit suspended, revoked, or had any other disciplinary action taken, or a permit refused by federal, state, territory, or district regulator authority.
- Willfully or habitually violated the Code of Ethics as set forth by the Ethics Committee and the Committee for Certification review of GAP.
- Made materially false or fraudulent statement in an application or other document relating to certification.
- Membership fees or violation fees not paid in full.
- Has been cited by the committee with the determination of Non-Renewal Status.

Violations

The committee of GAP may call to meeting regarding, but not limited to: Certified Professional's conduct, practice, safety practice, ethics. In the event GAP receives a written complaint regarding a Certified Professional GAP will notify in writing the complaint to the Certified Professional. A meeting will be called with committee members and the Certified Professional. The Certified Professional may submit any and all items they would like the committee to review and consider in the Complaint Meeting. It is to the best interest to assist and resolve the complaint and protect the public at all times.

In the event a Certified Professional is in violation of any certification requirements including, but not limited to excessive complaints, the committee shall:

- Revoke the certification with no refund to any and all fees.
- Suspend the certification, not allowing any the Certified Professional to claim valid certification for a stated period of time.
- Fine the Certified Professional, in which the fine fees will be entered into the "Scholarship Fund".
- Cancel the certification.
- Possibility of non-renewal acceptance.

Application Requirements are specialized per industry.

MEDICAL ESTHETICS

8. 2 Letters of Recommendation
9. Copy of Consent and Disclosure
10. Application fee
11. Pass GAP qualification exam with 70% or better.

GUIDELINES

Examinations

To become Certified, successful completion of the following examinations is required:

Written Examination tests range of topics, sterilization, sanitation, infection control, disease, health considerations, client consent forms, medical forms, skin, disorders, and related topics.

Written Exam may be taken without the prep class. If you would like to take a prep class for the exam, you may register for the prep class for an additional \$200 for the class.

Practical Examination is a formal verification of the procedures you have done. Applicants must have had "hands on" experience working on live clients demonstrating, safety, abilities, skills, knowledge, professional behavior, and is able to work without direction and with confidence. To demonstrate the acceptable level of competency, you will submit before and after pictures with signed consent forms for a minimum of the amount requested with Certification Application (20, 100, 200 Case Histories).

Oral Examination is a team of experts that may call you to interview you or ask questions upon application approval.

Examinations – Retesting and Failing

In the event you fail one part of the examination, you will have one more re-test option. In the event you fail the exam the 2nd time, you may take the exam again for another cost. Failure of examination of the certification process entitles the candidate to one (1) retesting opportunities within 12 months from purchase date.

Continuing Education

Certified Professionals agree to continued education to keep updated in new techniques and safety within every 5 years.

Request a list of continued education courses required to maintain or obtain the certification. Education Providers and Continued Education Courses on the list are approved by GAP.

Continuing education units (CEUs) hours are required to renew certification through GAP. The GAP will review continuing education requirements for licensure every 3 – 5 years.

Continued education must contain the following, but is not limited to:

Health and Sanitation Standards:	4 hours
Practical (Hands on) Education:	8 hours
Theory:	12 hours
New techniques	4 hours (can be included in the Practical Education)

New technology and industry standards change in time, continued education keeps our Certified Professionals up to date to ensure safe practice and higher standards. Certified Practitioners may not receive continuing education credit for attending the same course more than once for one renewal period. Further, a copy of the certificate of completion will be submitted. In conducting reviews of the certified practitioner, the committee may require additional proof from the practitioner to determine compliance.

It is further suggested that the practitioner review the new state laws and regulations of their area.

CODE OF ETHICS

1. Members agree to use strict sanitation with OSHA standards.
2. Members agree to continue education and keep up to date with new techniques and sanitation requirements.
